· Vinyl Cutting ·
Arduino · MicroPython
· Blender · Fusion 360
· Adobe Creative
Cloud · HTML · CSS ·
JS · React · AI Tools ·
Figma

PROFILE A

Master's student in Interaction Design at SUPSI, Switzerland, with a background in spatial and product design and five years of professional experience in exhibition design and fabrication. Through my master's, and through trainings completed directly in the SUPSI FabLab, I have been building a practice that spans digital fabrication, physical computing, 3D modelling, and graphic design. I approach a fabrication space the same way I approach a project: organised materials, reliable processes, and attention to both the deadline and the detail.

I work with 3D printers, laser cutters, and vinyl cutters, model in Blender and Fusion 360, and design in Adobe Creative Cloud. I also build with HTML, CSS, JavaScript, and React, and use AI tools such as Claude Code, Cursor, and Antigravity throughout my process. Collaborative by nature, and just as comfortable on the making side of a lab as on its communication and dissemination. Based in Mendrisio and available to start in September 2026, with the flexibility the role and its parallel study pathway require.

EXPERIENCE B

FEB 2024
SEPT 2025

Sales Agent

BeSpace Group · Paradiso

Producing client-facing communication materials and advertising strategy; translating complex property projects into clear visual proposals.

JAN 2022
JAN 2024

Exhibition Designer

Restuccia Allestimenti · Milano

Designing physical products people interact with, with on-site validation and cross-functional coordination throughout production.

JAN 2021
JAN 2022

Sales Consultant & Interior Designer

Polis Ceramiche · Milano

Developing interior design projects for private clients, producing 3D renderings and technical drawings, and managing the full sales process from brief to delivery.

EDUCATION C

Master's Degree — Interaction Design
SUPSI, MENDRISIO · 2025–2027

Bachelor — Interior Design
ESDAP DEIÀ, BARCELONA · 2016–2020

Erasmus Exchange Programme
NABA, MILANO · 2019
